

GRID Cork Panels

GRID – Making Space Work
Adaptable. Durable. Elegant.

Let creativity blossom with GRID's new cork panels. GRID's recently released cork panels are perfect for innovative spaces where brilliant ideas need somewhere to flourish. GRID's cork panels can be utilised as pin boards and are backed with either white or black sides allowing them to fit perfectly with other components of the GRID system. GRID is an adaptable architectural system that conquers the challenges of any corporate work space. Starting from just one module, GRID can be modelled into multifunctional furniture in the dimensions required. Once the structure is in place, other GRID components such as drawers, shelves, felt panels, cork panels, whiteboards or plant boxes can be added with ease. GRID brings functionality and elegance into any space.
